At PayingforSeniorCare, we understand that learning about and accessing the assistance you need isn't easy. We created this guide to help seniors and their families learn about the available financial assistance options for senior living and senior care in your state so you can focus on what matters: finding the right senior care for your loved one. In the following resource guide, learn about the financial assistance options for senior care and senior living in your state, what benefits the different programs offer, who is eligible, and how to apply.

Financial Assistance for Senior Living & Senior Care

According to estimates from The Administration for Community Living, 69% of people who turned 65 in 2020 would need some form of long-term care services throughout their remaining years. While such care is vital for the health and well-being of seniors, many individuals are concerned about how to pay for long-term care.

Luckily, Michigan programs can help seniors cover full or partial costs of care. Several programs can assist older adults in accessing the care and services they need, even if they can't afford to fund the full price on their own.

Medicaid

In Michigan, Medicaid may cover the costs of nursing home care and some home health care services. To be eligible, a doctor must evaluate you as needing a nursing home level of care.

How to Apply

You can apply for Michigan Medicaid online via the MI Bridges portal, which is available in English and Spanish. Alternatively, you can download an application form and return it to your local Michigan Department of Health and Human Services office. You can also visit your nearest MDHHS office to apply in person or call the Michigan Health Care Helpline at (855) 789-5610 for telephone assistance.

Eligibility

You might qualify for Michigan Medicaid if:

- You're aged 65 or above.
- You're disabled or blind.
- You already live in a nursing facility.

There are also fairly stringent financial requirements. Single applicants can have up to \$2,000 in assets. For married couples, the asset limit increases to \$3,000.

Monthly income limits are dependent on family size. Additionally, income limits for Michigan Medicaid are based on federal poverty guidelines, which are subject to updates. As of May 2022, income limits are:

Family Size	Monthly Income Limit*
1	\$1,506.25
2	\$2,029.42
3	\$2,552.50
